

Use this kit for collection of nasopharyngeal swabs for respiratory virus tests

1. To obtain the kit call 724-8632 (Micro Core Lab)
2. For Influenza A ONLY: order Flu A PCR or Flu A PCR/Reflex if Positive to H1N1 subtyping + Tamiflu resistance mutation test. Codes below.
3. For Flu A and other resp. viruses, order the DFA panel (+/- culture).
4. If you would like Flu A PCR performed on a Flu A Negative DFA sample please order a PCR test.
5. One NP swab is sufficient for resp. virus DFA and subsequent PCR if necessary.
6. Use a separate collection kit for culture if ordered (second swab in second VTM).
7. BALs are acceptable for PCR tests.

Test Name	Order code
Full Resp. DFA panel (8 viruses)	DVERV2
Flu A PCR only	FLUAPC
Flu A PCR Reflex to H1N1 + resist.	FLUAPX
Virus culture (swab or BAL)	VCUL
