An Inside Look at Stanford Hospital & Clinics

JUNE 2011

"I remember feeling paralyzed on my right side. I wasn't frightened because I didn't understand what was going on."
—Chris McLachlin

WHEN STROKE STRIKES, NO TIME TO WASTE
Rapid Recognition and Reaction Turn Tide

When Chris McLachlin had his stroke, friends recognized immediately what it was and called 911. Getting help quickly can make the difference between recovery and disability. [WATCH VIDEO AND READ FULL ARTICLE >](#)

Inside Dementia: Stanford Program Offers Families Unique Support

When M.J. White and her siblings noticed their mother, Beverlee, began to struggle with her memory, they called Stanford Hospital's Dementia Support Program for help. The comprehensive program, led by Rita Ghatak, PhD, was able to offer the White family what few hospitals worldwide could--a program that both assisted the patient as well as their caregivers.

Top Defense Attorney Gets Life-Saving Treatment for Blood-Vessel Tear

John Digiacinto was sitting at his desk a couple of months ago when his right arm went limp--a result of a tear in his carotid artery. With help from Stanford Hospital & Clinics, the tear was repaired and Digiacinto is back to work as executive director of the San Mateo County Bar Association. [READ FULL ARTICLE >](#)

Magnet Designation at Stanford Hospital Means Better Care for Patients

Stanford Hospital became one of the 41 hospitals nationwide to receive Magnet Designation the first time it was given in 1983. Since then, Stanford has become a leader in its ability to attract and retain quality nurses.
