An Inside Look at Stanford Hospital & Clinics

NOVEMBER 2011

"The thought of going every day, five days a week for seven weeks was just overwhelming. When I was presented with this shorter option, I just grabbed at it."

—Anne Broderick

## NEW PATHS TO HEALING

A Gentle Touch Proves Its Power in New Breast Cancer Treatments

When Anne Broderick was diagnosed with breast cancer, she was surprised to learn of a new form of radiation that lasted only days instead of weeks. The shortened radiation treatment left her feeling so well she was able to work throughout her therapy. [READ FULL ARTICLE AND WATCH VIDEO >](#)

### New Brain Aneurysm Treatment at Stanford Hospital Supplies Hope

This week, Stanford Hospital became the first hospital in Northern California (and one of only two in the state) to be qualified to offer the Pipeline treatment, without restrictions, for brain aneurysms.
