

# Dr. Dominik FLEISCHMANN

Professor of Radiology, Stanford University School of Medicine  
Chief of Cardiovascular Imaging, Dept. of Radiology, Stanford University  
Director of Computed Tomography, Stanford Hospital and Clinics

300 Pasteur Drive, Room S-072  
Stanford, California 94305-5105  
(650) 723-7647 (office)  
(650) 475-1878 (fax)

---

## A. CITIZENSHIP

Austria / European Union (US Permanent Resident)

## B. ACADEMIC HISTORY

### Colleges and Universities:

1974-1982	Secondary School, Tulln, Province of Lower Austria, Austria	n/a
1982-1989	University of Vienna, Medical School, Vienna, Austria	Dr.med.univ.

### Scholarships and Honors

1998	Schroedinger Stipend (I), Austrian Science Foundation (Stanford University)
1999	Schroedinger Stipend (II), Austrian Science Foundation (Stanford University)

### Post-doctoral and Residency Training

1990-1991	Public Hospital of the City of Allentsteig, Allentsteig, Austria	Internship
06-11/1991	Vienna Military Hospital (as part of National Service) Vienna, Austria	Internship
1991-1997	Department of Radiology, University of Vienna, Vienna, Austria	Residency
1998-1999	Department of Radiology, Stanford University, Stanford, CA	Research Fellowship

### Board Certifications / Licensure

1997	Diagnostic Radiology Diploma, Austrian Medical Chamber (in compliance w/ Directive 93/16/EEC Council of European Communities; valid in all countries of the European Union)
2004-2006	USMLE Step I, Step II-ck, StepII-cs, and Step III
2006	California Medical License: A98441

## **Other Study and Research Opportunities**

- 1998/99 PRECEPT - The Stanford Postdoctoral Educational Curriculum. Stanford University, Stanford, CA, USA
- 07-10/98 ORACLE – Outcomes research and clinical epidemiology course. Department of Epidemiology and Biostatistics, UCSF, San Francisco, CA
- 2001/02 Postgraduate Course for Management and Leadership in Medicine ('Postgradueller Kurs fuer Medizinische Fuehrungskraefte'). University of Salzburg, AUSTRIA

## **C. EMPLOYMENT HISTORY**

- 01/00-10/00 Staff Physician, Department of Radiology,  
University of Vienna, Austria
- 10/00-11/02 Associate Professor of Radiology, Department of Radiology  
University of Vienna, Austria
- 01/02-11/02 Vice Section Head, Dept. of Angiography and Interventional  
Radiology, University of Vienna, Austria
- 11/02-07/03 Staff Physician, Department of Radiology,  
Stanford University Medical Center, Stanford, CA
- 08/03-09/06 Assistant Professor, Department of Radiology,  
Stanford University Medical Center, Stanford, CA
- 08/06-06/11 Associate Professor, Department of Radiology,  
Stanford University Medical Center, Stanford, CA
- 07/11-pres. Professor, Department of Radiology,  
Stanford University Medical Center, Stanford, CA

## **ADMINISTRATIVE APPOINTMENTS**

- (2003) Acting Section Chief, Thoracic Imaging Section, Stanford Radiology (Sabbatical)
- (2009) Acting Section Chief, Cardiovascular Imaging Section (Sabbatical)
- (2010) Acting Section Chief, Thoracic Imaging Section, Stanford Radiology (Sabbatical)
- 04/08-pres. Director of Computed Tomography, Department of Radiology,  
Stanford Hospital and Clinics, Stanford, CA

Responsibilities include: (a) developing and implementing CT scanning and injection protocols (incl. monitoring of radiation exposure parameters), for all inpatient (n=3) and outpatient (n=4) CT scanners, ranging from 8-row systems to latest dual-source CT systems. (b) Education and training for RTs (inservice calendar, workshops for daytime and weekend staff, applications training). (c) developing, updating, and monitoring of CT related policies and procedures. (d) training and education of Residents, Fellows, and

Faculty on new CT technology. (e) maintain and develop industry collaboration/research collaboration with manufacturers of CT scanners and injectors.

- (2011) Acting Associate Chair for Clinical Affairs, Stanford Radiology (March 21-25, May 12-13, November 2-4)
- 2011 Section Chief, Cardiovascular Imaging

#### D. PUBLIC AND PROFESSIONAL SERVICE

- 1997 National Representative (Austria), of the Junior Radiologist Forum of the European Association of Radiology (EAR)
- 2011-2014 Chair, Refresher Course Subcommittee (Vascular), Radiological Society of North America (RSNA)
- 2012-2014 Member, Scientific Program Committee, Radiological Society of North America (RSNA)

##### External Reviewer

- 2001 Master Thesis Reviewer and Examiner, Vienna University of Technology
- 2004 Doctoral Thesis Reviewer and Examiner, Vienna University of Technology
- 2006 Doctoral Thesis Reviewer and Examiner, Vienna University of Technology
- 2010 Grant Reviewer, The Netherlands National Technology Foundation STW

##### Manuscript Reviewer

- 1996 - Manuscript Reviewer, *European Radiology*
- 2000 - Manuscript Reviewer, *European Journal of Radiology*
- 2004 - Manuscript Reviewer, *Radiology*
- 2004 - Manuscript Reviewer, *Journal of Computer Assisted Tomography*
- 2004 - Manuscript Reviewer, *American Journal of Radiology*
- 2005 - Manuscript Reviewer, *Investigative Radiology*
- 2005 - Manuscript Reviewer, *American Journal of Roentgenology*
- 2009 - Manuscript Reviewer, *American Heart Journal*
- 2010 - Manuscript Reviewer, *Circulation*
- 2011 - Manuscript Reviewer, *Journal of the American College of Cardiology*

##### Guest Reviewer

- 2000 Guest Manuscript Reviewer, *European Respiratory Journal*
- 2004 Guest Manuscript Reviewer, *IEEE Transactions in Medical Imaging*
- 2004 Guest Manuscript Reviewer, *J Thorac Cardiovasc Surg*

##### Editorial Board Member

- 1999 - *European Radiology* (Thoracic Imaging)

2003-           *European Radiology* – Section Editor (Computed Tomography)  
2004 -           *Der Radiologe*  
2007 -           *RADIOLOGY* (Cardiac Imaging) –Associate Editor

Guest Editor

2008           Seminars in Thoracic and Cardiovascular Surgery  
(Advances in Imaging of Cardiovascular Diseases: Vol 20, 2008. 332-399)

Search Committees

2011           Search Committee for Cardiovascular Imaging Imaging Faculty  
2011           Search Committee for Assistant Professor in Vascular Surgery

Corporate Advisory Boards

2010           Bracco Advisory Board

## E. POST-DEGREE HONORS, AWARDS, AND PROFESSIONAL ASSOCIATIONS

### Awards

(research/academic)

1993           Joseph T. Ferrucci Award, International Society of Biliary Radiology  
1995           Gerot Award, Austrian Roentgen Society  
1999           Cum Laude Award, Society of Computed Body Tomography  
1999           Research Trainee Award, Radiological Society of North America  
1999           First Poster Award, Austrian Roentgen Society  
2000           Invited Film reading panelist, European Congress of Radiology  
2002           Best Case Study Award, IEEE Computer Society  
2004           Editor's recognition award, 'Radiology' for Reviewing  
2005           Editor's recognition award, 'Radiology', for Reviewing  
2005           Best Medical Application (3<sup>rd</sup> rank), Eur. Soc. of Computergraphics  
2006           Hounsfield Award, Society of Computed Body Tomography (SBCT-MR)  
2006           Editor's Recognition Award, 'Radiology' for Reviewing  
2006           Editor's Recognition Award, 'Eur J Radiol' for outstanding reviewing  
2007           Moncada In-Training Award (David Tran), SCBT/MR  
2008           Certificate of Merit: Educational Poster:(P Sedati) RSNA 2008  
2011           Wyle J. Dodds Research Award, The Society of Gastrointestinal Radiologists (A. Kamaya)

(teaching awards)

2004           Junior Faculty of the Year Teaching Award, Stanford Radiology  
2011           Senior Faculty of the Year Award, Stanford Radiology

## Professional Associations

1991-	Member, European Congress of Radiology
1993-	Member, American Roentgen Ray Society
1993-	Member, Radiological Society of North America
1994-	Member, European Society of Thoracic Imaging
2006-	Fellow, Society of Computed Body Tomography and MR
2007-	Member, American Heart Association
2011-	Member, North American Society for Cardiovascular Imaging

22. Chan I, Sheahan D, Seaman D, Molvin LZ, Leung A, Fleischmann D. Effect of Iterative Reconstruction and Reduced Radiation Dose on Image Noise and Subjective Image Quality on Thin Section CT of the Lung: A Phantom Study. SCBT/MR Annual Meeting, October 22, 2011, Washington, DC.

## **8. Invited Presentations:**

1. Fleischmann D. 11. Wiener US and CT Seminar (Mit Kursunterlagen), November 12-13, 1993, Wien  
- Spiral- CT des Thorax
2. Fleischmann D. 4. Basler Tage der Medizinischen Radiologie. Mit Kursunterlagen, March 10-12, 1994, Basel  
- Moderne radiologische Abklärung interstitieller Lungenprozesse
3. Fleischmann D. Wiener Ultraschall- und CT- Seminar, Mit Kursunterlagen, November 11-12, 1994, Wien  
- Diagnose der Pulmonalembolie: Spiral CT: Technische Grundlagen, Möglichkeiten der 3D Rekonstruktion
4. Fleischmann D. Seminar Pulmonalembolie im Rahmen der Jahrestagung der Österreichischen Gesellschaft für Lungenerkrankungen und Tuberkulose, April 29 – May 1, 1995, Gmunden  
- Bildgebende Diagnostik - State of the Art - Spiral CT, Angiographie
5. Fleischmann D. Fortbildungsveranstaltung "Pulmonalembolie," October 21, 1995, St. Pölten  
- Diagnostik der Pulmonalembolie aus der Sicht der Bildgebung
6. Fleischmann D. 13. Wiener Ultraschall- und CT- Seminar, Mit Kursunterlagen, Nov. 10-11, 1995  
- Das Kniegelenk - Bandapparat
7. Fleischmann D. Friedrich Olbert Interventioneller Workshop, January 18-20, 1996, Baden bei Wien  
- Diagnose der Pulmonalembolie
8. Fleischmann D. Wissenschaftliche Sitzung der Österr. Ges. F. Lungenerkrankungen, February 28, 1996, Wien  
- State of the Art: Röntgendiagnostik bei exogen allergischer Alveolitis
9. Fleischmann D. Wissenschaftliche Sitzung der Österr. Ges. F. Lungenerkrankungen, March 27, 1996, Wien  
- Diagnose und Differentialdiagnose bei BOOP
10. Fleischmann D. 14. Wiener Schnittbildseminar, Mit Kursunterlagen, November 15-16, 1996  
- Chronische interstitielle Lungenerkrankungen  
- T- Staging des Bronchuskarzinoms
11. Fleischmann D. Vortrag am: Dept. of Physiologic Imaging, April 1997, Univ. of Iowa, Iowa City, IO, USA  
- Potential clinical applications of functional imaging in pulmonary embolism and emphysema.
12. Fleischmann D. Seminar Lungenemphysem im Rahmen der Jahrestagung der Österreichischen Gesellschaft für Lungenerkrankungen und Tuberkulose, May 1997, Wien, AUSTRIA  
- Das Lungenemphysem: Bildgebende Diagnostik
13. Fleischmann D. Seminar Pulmonalembolie im Rahmen der Jahrestagung der Österreichischen Gesellschaft für Lungenerkrankungen und Tuberkulose, May 1997, Wien, AUSTRIA  
- Moderne bildgebende Abklärung der Pulmonalembolie
14. Fleischmann D. Österreichischer Röntgenkongress, September 1999, Wien, AUSTRIA  
- CT-Angiographie mit Multi-Detektor Spiral CT
15. Fleischmann D. Oberlech Diagnostik Kurs, April 6-8, 2000, Oberlech  
- Virtuelle Endoskopie
16. Fleischmann D. European Society of Thoracic Imaging Annual Meeting ESTI'2000, June 18-20, 2000, Salzburg, AUSTRIA  
- Multislice CT: Technique, Principles, Artifacts
17. Fleischmann D. 2<sup>nd</sup> Annual International Symposium on Multidetector-Row CT, June 22-24, 2000, San Francisco, CA  
- Contrast Medium Delivery for MDCT: New Challenges
18. Fleischmann D. Dreiländertreffen der ÖGUM, DEGUM, SGUM, September 7-9, 2000, Wien, AUSTRIA  
- PAVK im Methodenvergleich: CT - Angiographie
19. Fleischmann D. Symposium MR vs. CT - Gefäßdiagnostik, October 7, 2000, Gelsenkirchen, GERMANY  
- CTA der peripheren Arterien
20. Fleischmann D. Wiener Schnittbildseminar, November 2000  
- Multislice CT – Technische Grundlagen
21. Fleischmann D. Multislice CT Eröffnung, February 21, 2001, AKH Wien, AUSTRIA  
- Multislice CT des Herzens

- Multislice CT – Angiographie
22. Fleischmann D. Vascular Imaging Workshop, March 18-23, 2001, Zuers, AUSTRIA
- Peripheral CT - Angiography

- RAD 301A, Radiology Clerkship (Aortic Imaging)
- Clerkship, Cardiovascular 3D Imaging: Michael Ma (cardiothoracic surgery): **clerkship** (3/29-4/23)

### **2. Residents/Fellows**

RESIDENT CONFERENCES in thoracic and cardiovascular imaging. including board review conferences. Case-based or lecture-style conferences included the following topics:

#### CARDIOVASCULAR:

- aortic emergencies: dissection, and it's variants and mimics, PAU, IMH, trauma
- thoracoabdominal aorta
- surgical anatomy of the aortic root and thoracic aorta
- endoleaks after AAA repair
- coronary CTA

#### COMPUTED TOMOGRAPHY:

- basic principles, technique and applications of ECG-gated MDCT
- radiation dose in MDCT
- contrast medium injection principles

FELLOW LECTURES: CARDIOVASCULAR BOOTCAMP: Introductory Course for Cardiovascular Imaging Fellows, incl. Body-, Chest, and Pediatric Fellow Participation in select topics; The bootcamp takes place every MON-THU in the months of JUL and AUG, 17:15-18:45

- Principles of Cardiovascular CT - CT Contrast Dynamics, -- Aorta I, Surgery, acute aortic syndromes Aorta II, Runoff embryology, anatomy, Coronary CTA, Radiation Dose

CARDIOLOGY AND CARDIOTHORACIC SURGERY RESIDENT/FELLOW CONF. (Mon. noon, Falk Bldg. Library)

- Coronary CTA, CTA of aortic root

### **3. Postgraduate (Visiting Students, Fellows)**

2004-2006, Justus Roos, MD, Research Fellow (University of Zurich, Switzerland)

2007 Pietro Sedati MD Reseach Fellow (University of Rome, Italy).

2008 Francesca Caravani MD Research Fellow, University of Rome, Italy

2009 Federica Ciolina, Diploma Student, University of Rome, Italy

2007-2009 Takuya Ueda, MD PhD, Chiba University Hospital, Chiba, Japan

2010 Stephen Cheung, MD, Visiting Fellow, China

2010 Ibraheem El-Mogy, MD, Visiting Fellow, Egypt

2010 Kathy Wong, MD, Visiting Fellow, China

### **4. Doctoral/Postdoctoral Research Mentorship**

Tejas Rakshe. PhD Student in electrical engineering, working on peripheral vessel visualization of peripheral CTA datasets. Located in the Clark Center part of the 3D-Lab. (s.a. unfunded research)

David N. Tran. Medical Student. "Contralateral shape information for interpolating femoropopliteal arterial occlusions' and 'dual-energy CT for lower extremity CTA' (funded by Stanford Med. Scholars Program and American Heart Association)

Varinder Phangureh. Medical Student. "Long-term follow up of stentgraft migration in AAA."

Catherine Dao, M.D.: Postdoctoral Fellow, Cardiology (interdisciplinary imaging fellowship):  
Multimodality, multidimensional imaging of the aortic root (3D and 4D CTA, 3D Echocardiography)

### **5. Research Workshops**

1. 1st annual peripheral CTA - project meeting. Vienna Medical Academy, Fri, 18 May 2001; 13:30 - 18:00 (20 participants)

## 2. AngioVis Workshop. Mon, 25.Oct.2004, Vienna, Austria

### H. GRANT SUPPORT

#### Active

Source: National Institutes of Health (R01 EB006837)  
Title: Inverse Geometry CT for Dose-efficient Volumetric Imaging  
Role: Other Investigator  
Period: 9/2006-8/2012  
Amount: 314,215 USD  
Goal: The goal of this research is the development of a novel CT system, based on multiple x-ray sources arranged on a wide array and a small detector system. Such a system can overcome geometric limitation of current CT cone-beam systems.

Source: Austrian Science Fund - Translational Research Grant (TRP 67-N23)  
PI: Milos Sramek, PhD  
Title: KASI – Knowledge Assisted Sparse Interaction for Peripheral CT (AngioVis III)  
Role: International Collaborator and Initiator  
Period: 9/2010-08/2013  
Amount: 280,000 EUR  
Goal: To develop a new data centric approach to interaction with visualization tools, which would open to the user the ever growing plethora of visualization techniques and data types in an intuitive and predictable way. We call this new interaction paradigm knowledge assisted sparse interaction (KASI). This approach would be an antipole to the traditional tool-oriented interaction, where an application offers a set of tools for processing and interaction and lets the user decide, which are the appropriate ones and in which order they should be applied.

#### Pending

Source: NIH  
PI: Pelc, Norbert  
Title: Dynamic bowtie attenuator for CT dose reduction and dynamic range control  
Role: Co-Investigator  
Period: 7/2012-6/2014  
Amount: 125,000 USD

Goal: To reduce radiation exposure from CT exams, we will develop an x-ray attenuator that will customize the radiation field to each specific patient, body section and viewing direction. The result will be a low cost and very effective method to directly reduce patient dose and at the same time improve CT performance and enable the use of new x-ray detectors that should reduce dose even further.

PI: Zarins, CK

Title: Resistance to Aortic Endograft Migration: Comparative Effectiveness of FDA Approved Devices

Role: Coinvestigator

Period: 2010-2011

Amount: 998,000 USD

Goal: The goal of this study is to compare the effectiveness of the FDA approved endovascular devices to resist displacement by hemodynamic forces in a wide range of aneurysm geometries and under varying hemodynamic conditions. Each of the 5 approved AAA devices and 3 approved thoracic devices will be tested and compared under similar conditions. Toward this end, we will combine 3D imaging, segmentation, Computational Fluid Dynamics (CFD) and Computational Solid Mechanics techniques to perform an analysis of the in vivo loading conditions experienced by the endografts, perform longitudinal studies describing the forces experienced by the devices over time, and estimate their likelihood of migration. The specific aims of this study are to develop and use novel computational tools (specific aims 1-3) and then use these tools to perform a number of clinical studies (specific aims 4-6).

PI: Milos Sramek, PhD

Title: Clinical Visualization Tools for Peripheral CT-Angiography (AngioVis II)

Role: International Collaborator and Initiator

Period: 1/2006-08/2009

Amount: 202,000 EUR

Goal: to extend, improve and integrate previous basic-research developments into a clinically applicable set of new interactive and user friendly tools - the AngioVis Toolbox - for fast routine processing of peripheral CT angiograms in patients with peripheral arterial occlusive disease.

Source: American Heart Association, Western States Affiliate Medical Student Research Award Program

Awarded to: David N. Tran (medical student)

Title: Automated vascular centerline interpolation through arterial occlusions in CTA datasets of patients with PAOD

Role: Faculty lead

Period: 2006/07

Goal: to develop and test a new algorithm based on anatomic symmetry for automated centerline extraction in patients with peripheral arterial occlusive disease.

Source: Swiss National Foundation

awarded to Justus Roos, MD, as a postdoctoral fellowship (Stanford)

Title: Knowledge-based classification and visualization of lower extremity arteries in patients with peripheral arterial occlusive disease.  
Role: Faculty advisor.  
Period: 1/2005-12/2005  
Amount: 65,000 USD  
Goal: To develop and explore new, knowledge-based algorithms for automated or semiautomated segmentation of peripheral arteries using a semantic network approach.

Source: European Association of Radiology / European Congress of Radiology '99  
Title: Optimizing Bolus Geometry for CT-angiography of the pulmonary arteries  
Role: Principle Investigator  
Period: 1/2000-12/2000  
Amount: 150,000 ATS (11.000 EUR)  
Goal: To develop a technique for individually customized contrast medium delivery to achieve uniform vascular enhancement at predefined levels in pulmonary CT angiography.

Source: Austrian Science Fund (FWF Project # P-15217 INF)  
Title: Visualization Tools for CT angiography of peripheral vascular disease  
Role: Principle Investigator  
Period: 04/2002 – 06/2004  
Amount: 1.8Mio ATS (130.000 EUR)  
Goal: To develop and validate new, time efficient methods for computer aided visualization and treatment planning in patients with peripheral arterial occlusive disease (PAOD), imaged with CT angiography.

## H2. Clinical Trial (multicenter)

Active

Source: *National Institute of Health (Duke Clinical Research Institute) – subcontract* (NCT01174550)  
Title: The PROMISE Trial - PROspective Multicenter Imaging Study for Evaluation of Chest Pain  
Role: Site Co-PI (with M.V. McConnell, Cardiology)  
Period: 2011 (two year enrollment)  
Amount: 141,000 USD (subcontract)  
Goal: The purpose of this multicenter study is to determine whether an initial non-invasive anatomic imaging strategy with coronary CT angiography (CTA) will improve clinical outcomes in subjects with symptoms concerning for coronary artery disease relative to an initial functional testing strategy (usual care)
